# DRIVE-IN RACKING

Drive-in Racking is available in a range of sizes and configurations.  
Please call and we can work together to get the most cost-effective and practical solution.

- Allows your forklift to drive into accessible lanes.
- High volume - Low SKU. Eliminates the need for multiple forklift aisles
- Perfect for high density storage of largely similar items.
- Prevents product crushing, and offers damage free storage.
- Single or double stacked pallets are always accessible.
- No special forklift needed.

## SPECIAL ORDERS

Here are some examples of hot dip galvanised racking that we supply for our extreme outdoor climate conditions.

If you have a special requirement please call one of our experienced staff to help with your solution.

Whatever you need, we can help.

Outdoor hot dipped galvanised racking.

Specialised heavy duty cantilever racking.

- Adjustable Feet
- Three Heights & Depths
- Two Bay Lengths
- Metal Shelves

### Maximise your floor-space!

Gondola Shelving is a freestanding, flexible and attractive storage solution, which is particularly common in retail and shop-front environments.

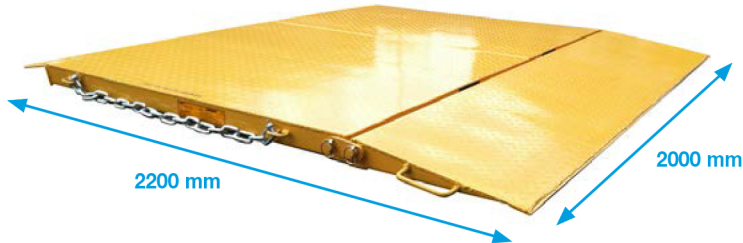

# CONTAINER RAMPS

## 6.5 TONNE RAMPS

2000 x 2200 mm

## 8 TONNE RAMPS

2320 x 1800 mm

Container Ramps are designed to bridge the gap from ground to container, so you can drive your fork right into the container. This makes loading and unloading containers so much easier and saves countless labour hours.

You'll find many companies selling short ramps with much lower load capacities. This is dangerous for obvious reasons.

We have sold thousands of these ramps over the years and have not had one failure ever due to poor manufacturing - They aren't the cheapest but they are the best.

8 tonne ramp offers multiple fork entry points for easy placement

- Designed and constructed in accordance with Australian standard AS3990 - Mechanical Equipment - Steelwork.
- The Welding and fabrication of the Container Ramp have been carried out in accordance with ANZ standard 1554.1 - Structural Steel Welding.
- Ramps are fitted with forklift pockets for easy placement.
- Safety chains included at no additional cost.
- 12 month warranty.

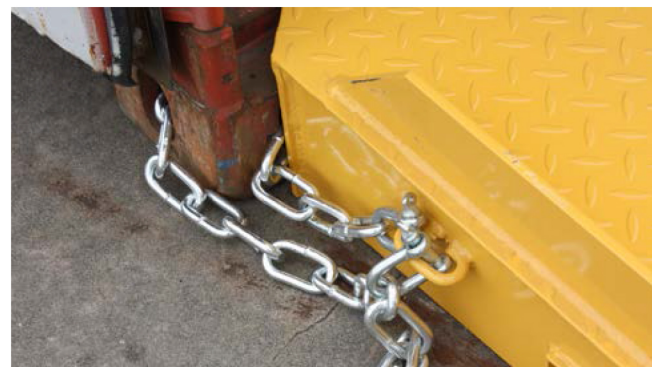

### SPECIFICATIONS

#### 6.5 TONNE RAMP

Load capacity	6500 kg
Ramp weight	275kg
Length	2000 mm
Width	2200 mm
Fork pocket size	165 x 60 mm
Fork pocket centre	775 mm

#### 8 TONNE RAMP

Load capacity	8000 kg
Ramp weight	440 kg
Length	1800 mm
Width	2320 mm
Fork pocket size	165 x 60 mm
Fork pocket centre	520 mm

Chain to secure your ramp to the container stops unwanted movement.
